

## Spectral Imaging with VideometerLab

### Application: Pharmaceutical packaging

Videometer A/S  
[www.videometer.com](http://www.videometer.com)

# PVC blister pack with one empty blister

# Full and empty white PVC blister pack

# Two pharmaceutical packages

# Comparison of white base color

Two versions of white with separate spectrum

# Comparison of white base color

Mapping the distance to white base color of right sample

# Comparison of visually similar blues

# Conclusion

- Colors with visually similar color, but different spectrum can easily be discriminated
- Color differences may be mapped in many different ways and some options are illustrated here
- Any color difference shown may also be quantified in a few numbers
